

## TRUST IN NORCROS ADHESIVE PRODUCTS

Integral to the Norcross Adhesives' ethos 'Job Done' is superior product quality. Each and every product is stringently tested in high-tech laboratories prior to being released to the market.

All of our products have achieved demanding EN standards for European markets and American ANSI standards for the US and Middle Eastern markets. Working closely with CERAM Research, desired product quality is achieved and subsequent rigorous Quality Assurance processes ensure that product integrity is maintained on an on-going basis.

Contrary to popular belief, not all products passing the same industry classification deliver the same quality. All Norcross products comfortably pass the required standards to ensure ease of use and consistency on site.

Norcross Adhesives' products are superior formulations as demonstrated by blind product trials; they consistently match and exceed the performance of other leading brands.

### Guaranteed for Life

As the industry is well aware - failures are a major risk for specifiers and contractors and hence a major barrier to the Company's 'Job Done' ethos. Unlike some other adhesive manufacturers, with Norcross Adhesives, it's not just adhesives and grouts that are guaranteed for life. Every product on the range is supported by the same guarantee and, as a result, complete product systems are therefore guaranteed for life.

## READY MIXED ADHESIVES

### ULTIM8 WALL TILE ADHESIVE

- Ready mixed
- Non-slip
- Bathrooms & kitchens
- Internal & external
- Easy to use

### ULTIM8+ WALL TILE ADHESIVE

- Ready mixed
- Non-slip
- Bathrooms & kitchens
- Polymer modified
- Ideal for power showers

## PREPARATION

### PERMLAYER ANTI-FRACTURE UNDERLAY

- Suitable for use over timber as well as green and cured concrete slabs and screeds
- Bridges fractures up to 3mm
- Replaces conventional plywood overlays
- Heated floors

### PRO 50 LEVELLING COMPOUND

- Single part
- Fibre-reinforced
- 2mm to 50mm
- Self levelling
- Heated floors
- Traffic after 4 hours

## POWDER ADHESIVES

### THICK BED PORCELAIN & STONE ADHESIVE

- Sets in 3 hours
- 5mm to 25mm bed
- Flexible, ideal for plywood overlay
- Heated floors
- Internal & external floors
- Available in white & grey

### RAPID PORCELAIN & STONE TILE ADHESIVE

- Non-slip
- High adhesion strength
- Suitable for ceramic, porcelain & natural stone tiles
- Walls & floors
- Internal & external
- Available in white & grey

### ONE PART FLEXIBLE

- 1 part - mix with water
- Built-in flexibility
- Ideal for fully vitrified tiles
- Walls & floors
- Water resistant
- Internal & external
- Available in white & grey

### ONE PART DIRECT TO WOOD

- 1 part - mix with water
- Flexible & rapid setting
- Underfloor heating
- Walls & floors
- Timber & metal substrates
- Internal & external

## GROUTS & FINISHING

### WALL TILE GROUT

- Fine texture
- Shrink & crack resistant
- Water resistant
- Internal & external
- 0mm to 3mm joints
- Available in 2 colours

### 4 INTO 1 WALL & FLOOR TILE GROUT

- 1mm to 8mm joints
- Rapid setting
- Anti-bacterial/Flexible
- Ideal for porcelain and natural stone tiles
- Heated floors
- Water resistant
- Available in 11 colours

### FLEXIBLE FLOOR & WALL TILE GROUT

- Wide joint
- 2mm to 20mm joints
- Ideal for porcelain tiles
- Heated floors
- Internal & external
- Available in 6 colours

### 4 INTO 1 SILICONE SEALANT

- Flexible
- Anti-bacterial
- UV resistant
- Neutral cure
- Low modulus
- Internal & external
